EDUCATION

Sister Nivedita University

B.Tech in Computer Science (Data Science & AI)

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Machine Learning, DBMS, OOP.

Kolkata, India
Aug. 2024 – 2028

TECHNICAL SKILLS

Languages: Python, C++, JavaScript (Node.js), Solidity, SQL, HTML/CSS

AI/ML: TensorFlow, Scikit-learn, Pandas, NumPy, Computer Vision, MLOps, BERT

DevOps Tools: Docker, GitHub Actions, Git, GCP, Flask, REST APIs

Soft Skills: Developer Advocacy, Technical Mentorship, Team Leadership, Public Speaking

EXPERIENCE

LNC Community

Developer Team Member (Open Source)

- Architecting backend solutions for open-source projects, collaborating with cross-functional teams to solve complex development challenges [cite: 29-34].
- Participating in architectural discussions and code reviews to define and execute project roadmaps.
- Developing scalable features using Node.js and Python to enhance community platform capabilities.

Remote

Oct. 2025 – Present

Brainwave Matrix Solutions

Artificial Intelligence Intern

- Engineered and deployed machine learning models for real-world applications, focusing on supervised and unsupervised learning techniques[cite: 66, 68].
- Collaborated with senior AI professionals to implement data-driven solutions and enhance model accuracy[cite: 67].
- Implemented data preprocessing pipelines and conducted research on deep learning architectures[cite: 68, 70].

Kolkata, India

July 2025 – Sept. 2025

GeeksforGeeks (SNU Chapter)

Technical Executive

- Mentored **15+ student teams** through the full AI/ML project lifecycle, helping them define problem statements and select optimal algorithms[cite: 58].
- Guided the deployment of solutions using **Python, TensorFlow, Flask, and Docker**, ensuring robust system architecture[cite: 60].
- Enabled **10+ successful live demos** and application showcases by providing in-depth code reviews[cite: 60].

Kolkata, India

Mar. 2025 – Nov. 2025

LEADERSHIP & COMMUNITY

Google | Gemini Student Campus Ambassador

- Spearheading AI-driven initiatives and organizing workshops to bridge the gap between cutting-edge technology and campus curriculum[cite: 44, 46].

Aug. 2025 – Present

HackQuest | Developer Advocate

- Advocating for Web3 and AI development tools while supporting a global community of developers[cite: 22, 23].

Nov. 2025 – Present

GirlScript Summer of Code | Campus Ambassador

- Promoting diversity in tech and fostering inclusivity in STEM by organizing engagement events for aspiring coders[cite: 50, 53].

July 2025 – October 2025

Coding Ninjas SNU | Tech Team Member

- Developing technical projects and supporting the 10X Club's initiatives to drive coding excellence[cite: 38, 42].

Aug. 2025 – Present

CERTIFICATIONS & ACHIEVEMENTS

SIH'24 Finalist: Recognized for technical innovation in the Smart India Hackathon 2024[cite: 16].

Google ML Operations: Specialization in MLOps for Generative AI[cite: 13].

Transformer Models: Advanced certification in BERT and NLP architectures[cite: 11].
